

Appendix 3 – Proposed Village Meeting Issues for incorporation into TAG Report 2017

Notes

1. TAG is the Parish Council Traffic Advisory Group
2. No names were recorded at the Village Meeting 'R' refers to a resident of the village.

The issues below were recorded in a Village Meeting to discuss the TAG report. The TAG Group now proposes that these issues are incorporated into the report as Appendix 3 and should be taken into account when planning future actions.

- 'Raised crossing points don't slow traffic down – but they do make a lot of noise' particularly when vehicles with trailers hit them.
- Some 'Rs' expressed general concern when crossing the road near the 3 Kings r/b
- Several 'Rs' expressed concern about increased use of the B1106 by HGVs
- One 'R' asked whether there were plans to measure pollution levels due to the high volume of vehicles at the 3 Kings r/b
- One 'R' suggested traffic lights on the avenue of Oaks to moderate the traffic flow.
- Several 'Rs' expressed concerns about the narrow footpath near the 3 Kings r/b and leading to the crossing point for the community centre. Far too narrow for a wide buggy and children in tow (with a dog sometimes)

Extract of Minutes of TAG Meeting 12th April 2017

Present B. Grimshaw, H Quayle, G Clark-Ward
