

# Lifeline VIEW AED

**FULL-COLOR VIDEO INSTRUCTION DELIVERS  
BREAKTHROUGH EASE-OF-USE**

Meet the AED that's taking easy-to-use to a whole new level. Other AEDs tell you what to do in an emergency. The Lifeline VIEW is the first and only one that shows you--with video in full-motion color. With award-winning design, durability and easy maintenance - backed by the Defibtech commitment to innovation and excellence - we can guarantee you've never seen an AED like this before.

### Easy to Maintain

One of the major problems with most AEDS is maintenance. Not with the Lifeline VIEW. The status screen gives you up to the minute information on maintenance if it's required. In addition, built-in video help gives you easy, step-by-step guidance on maintenance that supplements the user manual. Proactive reporting monitors the status of the device and its components.

### SELF TESTS

#### AUTOMATIC

Automatic daily, weekly and monthly circuitry tests

#### BATTERY INSERTION

System integrity test on battery insertion

#### PAD PRESENCE

Pads pre-connected tested daily

### PATIENT ANALYSIS SYSTEM

Automatically evaluates patient impedance for proper pad contact.

Monitors signal quality and analyzes patient ECG for shockable/non-shockable rhythms.

Meets AAMI-DF-80 specifications and AHA recommendations

### Award-Winning Ergonomic Design

Newest in a family of defibrillators that have won a number of industry awards for design and innovation.

**Battery warranty:** 4 year replacement

**AED warranty:** 10 years

# Powerheart G5 AED

## The only AED to combine:

- Rescue Ready self check regime
- Fully automatic shock delivery
- Fast shock times
